WASHINGTON UNION.

New Volume, New Types, and New Arrangements. TO THE NATIONAL DEMOCRACY OF THE UNITED STATES the memory of the great national democratic party that, have the memory of the great national democratic party that, have assumed the sole profitness.

efforts to place a copy of the Daily, Weekly, or Semi-Weekly Union in the hands of every farmer, mechanic, and working-man in the country.

The subscription price of the Daily Union is ten dollars per annum. The Th' Weekly (published semi-weekly during the recess of Congress) is five dollars per annum, and contains all the reading matter which appears in the Daily. The Weekly Union is furnished to subscribers at the low rate of one dollar per annum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely printed sheet, and contains as much reading matter in the course of a twelvemouth as would make tender ordinary ectron columns. It will be found to possess the advantages of both a political and a family newspaper. The most important political articles of the daily issue are transferred to the weekly, and during the sitting of Congress a careful abstract of the daily proceedings of the two houses is prepared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, speeches of distinguished democrats in and out of Congress, interesting correspondence, a full summary of forcign and demestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

That the Weekly Union is appreciated in the most substantial manner by democrats in every section of the Union, no better evidence need be desired than is furnished by its rapidly increasing circulation. Within eighteen months tuestly flouses on we make have been added to the subscription list, and, with the elightest exertion on the part of our friends, its circulation can be increased to one hundred thousand copies before the close of the year, eliminary is a substantial manner by democrats in every section of the jurish sections, expose flaischood, dispel error, and to bring before the people the principles and measures

from motives which I think will be understood and appreciated by democrats everywhere.

In conclusion, I desire to say a few words to subscribers, and to such as may hereafter become subscribers. There is now owing to the Union establishment upwards of seventy thousand dollars for back aubscriptions. These enormous arrearages are the result of the credit system. With the new volume upon which the Union has subscriptions for the subscriptions of the establishment will be conducted on strictly cath principles. No subscriptions for the Bally, Semi-weekly, or Weekly issue will be received unless accompanied with the advance payments.

MANUFACTURING COMPANY'S IMPROVED SEWING MACHINES,

THESE machines combine all the improvements that have been invented. Their extensive and increasing sale, and the unanimous approval and commendation that they have received, warrant the proprietors in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

Among the undoubted advantages that they possess over all others, are:

e:

Let. Beauty and simplicity of construction, and consequent freedom om derangement and need of repairs.

2d. Unexampled case and rapidity of operation.

3d. Noiselses movement.

IN VIRGINA,

OFFERED FOR SALE TO THE PUBLIC IN LOTS.

THIS property has been held under an act of incorporation since 1838. The chartered property then consisted of 1,183½ acres of land, in Fanguier county, including, the ingraver meals thereon, sind was divided into 2,900 shares, estingled in 250 charter at \$100 cach. The subscriber having subsequently reacquired the property, sold a part thereof, and there now remain fully eleven hundred acres, together with the buildings enlarged and greatly improved. The more cadily to sell side a preperty, and to increase its value, he had lad of the larger portion of the land into about 10,900 building lots, with convenient streets, or 60 feet with, running north and south, east and west, with a view to the formation of a village or city, to be called "Warrenton Syrings." These lots nearly surround the reserved sixty-five acres, which include the Bulphur Springs and all the continguous buildings and improvements. These sixty-five acres, also, are offered for sale, in 2,500 shares, in connexion with the lots; the whole 12,500 lots and shares being estimated at £10 each, and when taken to be partitioned by lot; those getting the 4,500 shares will constitute the corporation under the amended: charter of February 2, 1854, known as the Fauquier White Sulphur Springs Combares, in Charles, the Addition of this property by the such character and business qualifications, to whom, as treatee for the pitrpose, the entire property has been conveyed.

The valuation of this property by the sworn officer of the Common wealth shows that the buildings alone are worth \$50,000; the assessment per acre is put at \$54. Such property requires no, of liberal expenditures for the public accommodation than individuals are able or OFFERED FOR SALE TO THE PUPILIC IN LOTS.
